

Process ICT

'For all your process needs'

Delivering Full CMMI Services
To Companies Worldwide

Improve efficiency, increase profit margins,
develop standards and strengthen client relations.

What We Offer

Process ICT offer full CMMI Services to clients Worldwide. We have worked with some of the World's largest organisations, implementing CMMI through Training, Consulting and Appraisals.

The adoption of the CMMI Model is now becoming a standard requirement across many industries and a benchmark for setting standards Worldwide.

By adopting the CMMI Models our clients have achieved an improved level of standards, higher staff efficiency and reduced staff turnover, increased profit margins due to more effective forecasting, reduced wastage and reuse, as well as improved supplier management.

Our experienced and knowledgeable Trainers, Consultants and Appraisers will help your company reach it's objectives through CMMI in a clear, simple and easy to follow approach.

Through our understanding of a wide range of industries we are able to identify key areas for improvement and highlight the areas your company can excel in.

Were able to deliver 1.5 to 2 times as much work with 75% of the resources, and were able to return 75 million pounds back to the UK government in savings.

Our Training Services

We deliver regular scheduled training courses in the UK as well as internal courses tailored to your business. We offer the following CMMI courses:

- Introduction to CMMI for Services v 1.3
- Introduction to CMMI for Development v1.3
- Acquisition Supplement for CMMI for Development v1.3
- Services Supplement for CMMI for Development v 1.3
- Development Supplement for CMMI for Services v 1.3

Our in-house training is available at your offices for a minimum of 6 delegates per course.

All of our courses are delivered to the latest version and to the highest standard. We provide delegates with full course materials and can also provide follow-up support where needed.

I had little knowledge of CMMI when I attended the course, now I have a good understanding of the processes and how implementing them can help my business. I thought that the trainer was really helpful and informative, I would definitely recommend this course to anyone

Course delegate from 2013

Appraisals

Our team of Appraisers and Lead Appraisers have the knowledge and experience to help our clients achieve their desired Maturity or Capability Level. Our Appraisal services support businesses from the initial reporting stage, to achieving the levels of Capability through training and development, right the way through certification.

We are also able to offer follow-up support to ensure your company continues to meet the standards set in the Model and achieve maximised benefits.

The role of the Appraiser is to carry out an initial CMMI SCAMPI Appraisal and then to report to your company with the Maturity or Capability Level,

An Appraisal carried out by one of our Appraisers involves them looking into:

- Discussing with you your objectives for Maturity or Capability Levels
- Your current processes
- Identify areas of improvement, suggested process areas and likely level achievements.

In order for a company to achieve a specific Maturity or Capability Level they must show that they are capable in each of the defined areas or processes to a minimum level.

Our qualified Appraisers, Consultants and Trainers will help your business learn and adopt the Model in order for you to reach your desired level.

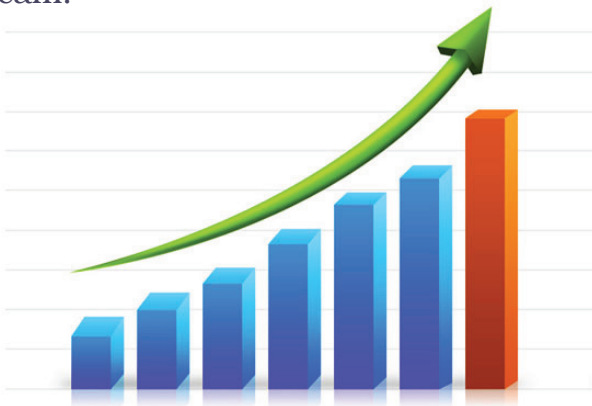

What Sets Process ICT Apart?

Process ICT can offer CMMI Training, Consultancy and appraisals to companies of any size. Where we stand out is in our delivery.

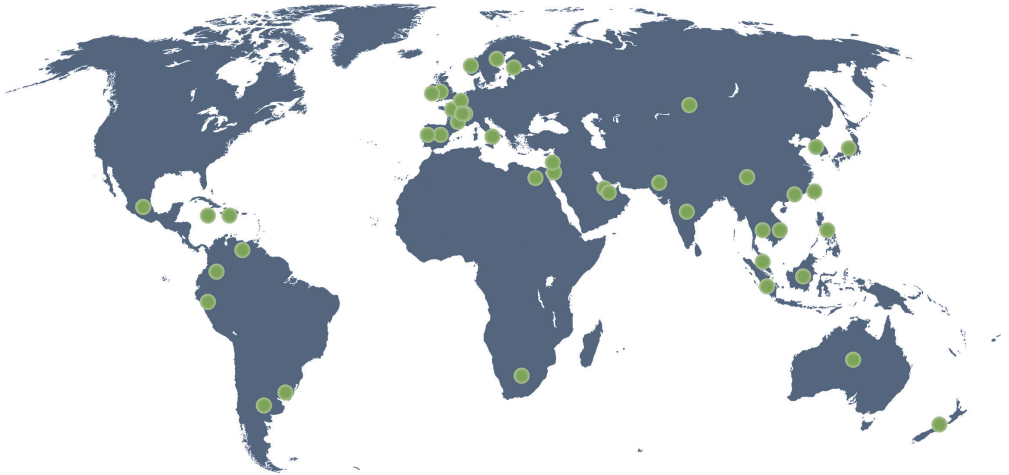

CMMI is often delivered in a confusing and long-winded manner which can put companies off making the most of the models we work from. This is why we provide a jargon free, easy to understand service that all levels from Executives to Operational Staff can understand and adopt to make their business even better. Our approach has lead to optimised client results and a higher general level of understanding among employees.

Our Trainers, Consultants and Appraisers have an extended knowledge of CMMI processes and a passion for helping businesses reach their potential. Over the last 23 years our appraisers have worked with multi-national corporations as well as smaller national companies, 'every one of our clients receiving excellent rates of return and growth in numerous areas.

If you would like to find out more about CMMI, or about any of the services Process ICT provide, please call us or email our friendly team.
